

1. With the quitting of the CCP, one will be protected by God, will obtain the wisdom and energy to defeat the evil specter of the CCP

The vast number of human-right activists, anti-violence demonstrators, and those who have been suppressed by the CCP, please remember: In order to succeed in human-right and anti-violence movements, one must first quit the CCP. By doing so, you will be protected by God and be provided with the energy to defeat the CCP. This is what the saying of "heaven blessing China, heaven eliminating CCP" is all about. In the meantime, by joining the scattered human-right and anti-violence forces with the bigger historic current of quitting and disintegrating the CCP, we can completely disintegrate the CCP and all its affiliations, and eventually succeed in human-right and anti-violence movements.

2. Participation of all to stop the persecution

No matter in China or the rest of the world, Chinese people should all participate and contribute time, effort or money to disclose the evil nature of the CCP by promoting the "Nine Commentaries" and the "Quitting the CCP" movement. By completely destroying those things symbolically associated with the CCP, such as flags, banners, books, paintings, etc., we will clean out all things where the evil specter can attach itself to. By all means, we will stop those remaining CCP members from persecuting Falun Gong practitioners and inflicting more sufferings on the Chinese people.

3. Carry out actions to stop CCP's damaging acts overseas

Let us condemn CCP's latest crime in Slovakia. Let us disclose and resist CCP spies' infiltration and other unscrupulous activities. Let us gain the understanding and support from more governments, officials, and general public in spreading the "Nine Commentaries" and "Quitting the CCP" movement. Let us further wipe out the poisonous CCP culture, while promoting the renaissance of the traditional Chinese culture. Let us make the CCP overseas organizations lose their playground like rats being chased in the streets.

4. Publicly quitting the CCP is the key to the quick disintegration of the CCP

As Chinese people, if you have been persecuted by the CCP in any ways or forms, if you have been looking for the most straightforward and effective way to express your defiance, please publicly quit the CCP. Your spirit will be freed and you will be blessed by God.

As private property owners, when your homes demolished, your stores confiscated, your stocks valueless, please publicly quit the CCP in order to express your condemnation!

As the victims of CCP's several decades of "battling with heaven and fighting with the earth", please publicly quit the CCP to express your resistance!

As the survivors of the CCP's political movements or family members whose relatives were killed in those movements, please publicly quit the CCP, then you can ask for the pay-back!

As veteran soldiers, who have been unfairly treated, please publicly quit the CCP, if you wish to protest or even to start an uprising!

As farmers whose land, on which you rely your life, has been confiscated by the CCP, please publicly quit the CCP if you wish to protest!

As intellectuals, when you are deprived of the freedoms of the speech and of the press, please publicly quit the CCP to express your discontent!

As lawyers, when your acts of justice have been prohibited by the CCP, when you are persecuted the same way as Gao Zhisheng has been, please publicly quit the CCP to voice your contempt!

As the CCP-controlled news media personnel, when your will and spirit are being exploited by the CCP in order to deceive the nation, please publicly quit the CCP to express your true opposition!

As women, when your rights have been violated by the CCP, just as Deng Yujiao was deemed guilty because of her self-protection against three CCP scoundrels, please publicly quit the CCP to express your anger and protest!

As parents, if you wish to prevent your children from having the same fate as the victims of WenChuan earthquake or the poisonous baby powder, please publicly quit the CCP and help your children to quit the CCP affiliated youth leagues.

The forthcoming new wave of quitting the CCP will free more Chinese people's spirit from the shackle of the evil specter of the CCP, will even more quickly and thoroughly disintegrate the CCP, will completely stop the persecution, and will soon usher in the new era without the evil specter of the CCP.
